Disinfecting a room is easier than ever before...

B SANITIZED – Disinfectant Fogger

Imagine how long it would take to fully disinfect every single surface in a room. With B SANITIZED, you can do this in just minutes!

B SANITIZED is an EPA registered disinfectant in a full release fogger, and is a broad-spectrum antimicrobial agent for environmental surfaces. B SANITIZED also contains a patented odor counteractant for effective and immediate odor control!

B SANITIZED is effective against HIV, TB, Herpes Simplex II, Staphylococcus aureus, Salmonella choleraesuis, and Athletes foot fungi. B SANITIZED controls mold and mildew by destroying them at their source!

When placed in the center of a room B SANITIZED will effectively disinfect all surfaces, allowing the entire area to be fully disinfected and germ free.

B SANITIZED is great for schools, hospitals, day cares, kennels, care homes, cars, buses, taxis, boats, homes, offices, kitchens, bathrooms and anywhere else germs exist!

B-Sanitized is registered with the Environmental Protection Agency in USA

Especially designed for hospital and institutional use

B CLEAN - Cleaner-Disinfectant-Deodorizer-Fungicide, Sanitizer-Mildewstat

B CLEAN is a cleaner, disinfectant, and sanitizer designed for institutional use, such as hospitals, nursing homes, and schools where housekeeping will be of prime importance in controlling the hazard of cross-contamination from environmental surfaces.

B CLEAN can provide the assurance you need in this area, when used as directed. For use on floors, walls, sink tops, garbage pails, telephones, restrooms, bed pans and operating rooms. Effective against *Staphylococcus aureus*, *Salmonella choleraesuis* and *Pseudomonas aeruginosa*. Also effective against pathogenic fungi, *Trichophyton interdigitale*.

MRSA is an infection caused by a group of bacteria called *Staphylococcus aureus*. MRSA is a type or "strain" of *Staphylococcus aureus* that does not respond (is resistant) to certain antibiotics including methicillin and the more common antibiotics such as oxacillin, penicillin, and amoxicillin. The letters MRSA stand for "methicillin resistant staphylococcus aureus". MRSA causes conditions such as furunculosis, pyemia, osteomyelitis, suppuration of wounds and food poisoning.

Cleaning surfaces with Environmental Protection Agency (EPA)-registered disinfectants is effective at removing MRSA from the environment.

B CRYSTAL CLEAR - Glass Cleaner

B CRYSTAL CLEAR is a ready to use glass cleaner designed for cleaning all types of glass without streaking. This product is safe to use on tile, chrome, vinyl, plastic or stainless steel, and is non flammable.

B CRYSTAL CLEAR leaves surfaces residue and streak free. Propriety non-ionic surfactants in B CRYSTAL CLEAR help repel dust and dirt from surfaces, allowing them to remain clean and polished longer!

B-Sanitized is registered with the Environmental Protection Agency in USA
